

WITH STRENGTH AND FLEXIBILITY, YOUR LABORATORY IS IMPOWERED™

Integrated QC Solution

The reputation of your lab depends on the integrity of your results. At Data Innovations we recognize

The middleware from DI allows the laboratory to police its quality control effectively.

“You can more timely release your QC, your variances, your outliers, and you can pull out data more handily.”

*Glen McIver,
Centra Health*

interface with Bio-Rad's QC OnCall™ and Unity Real Time™.

the importance of integrating QC into results production. Nowhere is this more critical to your business than in quality control procedures that protect your physicians and their patients.

Data Innovations is the only middleware company to offer a bi-directional

Other features of Data Innovations' Integrated QC include:

- Automatically and immediately sends QC results to QC OnCall™/Unity Real Time™
- Allows you to alter results production immediately
- On-demand interlaboratory comparison reports for real-time troubleshooting
- Web-based, peer grouping via Bio-Rad's QCNet

Along with the obvious benefits of the Integrated QC is Data Innovations' unique, powerful Notifier application. Be alerted immediately with pop-up notifications that deliver critically flagged information to operators, for example, when a 1-3s rule violation occurs or QC has not been run in 8 hours for a particular analyte, so they can take appropriate action to maintain your quality standards.
